# Welcome Cattlemen!

## WHR PRIME CUT PRODUCTION SALE

March 14, 2015

1 p.m. MDT At the Ranch

Dear Friends and Neighbors,

Welcome to the West Hills Ranch 5th annual Prime Cut Production Sale! It has been a year to remember in a lot of ways! Thanks to our customer's confidence and a great sale team, last year's sale was a success! We will be hosting the sale live at the ranch once again with the same format and a live stream online at [liveauctions.tv](http://liveauctions.tv). Continuing record high cattle prices have intrigued the industry. And in my personal life, meeting my now fiancée, Jessica DeVries, has also made this a year that will not be forgotten!

We have a solid set of herd bull prospects and replacement heifers to offer this year. These cattle come with advantages that include our Sound Breeder Guarantee, Docility Guarantee, calving-ease, moderate frames and complete performance information at sale time. We have a passion for helping you select cattle that will work. Whether you are looking to take advantage of the unique traits Salers offer in a PB herd or to maximize heterosis and breed complementarity in a hybrid animal, you can look to the West Hills Ranch for sound, docile, calving-ease, polled Salers cattle in a moderate frame.

The sale cattle will be on display the morning of the sale. Join us for a complementary lunch before the sale with the auction to follow at 1:00 pm MDT, March 14, 2015.

If you cannot make it to the ranch on Sale Day, be sure to log on at [www.liveauctions.tv](http://www.liveauctions.tv) and register to bid. Registering in advance of the sale is not required, but is appreciated.

We would enjoy visiting with you or walking through the sale cattle anytime. We look forward to working with you and hope to see you Sale Day!

- *Ryan Jarratt*

*Selling*  
**80**

### *The West Hills Advantage*

- Moderate frames
- Docility guarantee
- Sound breeder guarantee
- Raised at high altitude with no creep
- Fed to target health, not a standard gain until May for free
- Accurate birth weights
- 120 day performance test plus carcass ultrasound
- 1,300 lb., sound uddered females
- Strong maternal traits, longevity and calf survivability

# The West's source of calving-ease, PB, polled Salers cattle.

## Sale Day Phone Numbers:

Ryan Jarratt, Ranch Manager ..... (307) 248-1098  
 Dean Pike, American Salers Assoc..... (303) 810-7605  
 Kelly Troutt, Ringman..... (208) 584-3435  
 Randy Hruska, Ranch Owner ..... (307) 389-0987

Auctioneer ..... Neil Effertz

*Bidding:* Each animal will be sold to the highest bidder. Any disputes will be settled by the auctioneer in charge. His decision is final.

*Payment Terms:* Terms of the sale are half due at sale time and the balance due at delivery.

*Buyer's Risk:* Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for as agreed, but at the purchaser's risk as to loss or injury.

*Catalog Changes:* Any changes from information printed in this catalog will be announced from the auction block at the time the animal is sold and such announcements shall take precedence.

*Liability:* All persons who attend the sale do so at their own risk and the management assumes to liability, legal or otherwise, for the safety or behavior of the animals.

*Health:* All cattle in this sale are in excellent condition and health. Health certificates will be furnished when needed for shipment anywhere

*Retained Interest:* In the foot notes of a few of these bulls, you will find the sentence "retaining 1/2 semen interest." This means that the West Hills Ranch is interested in using these bulls in their artificial insemination program. The bulls will be initially collected before delivery with no additional cost to the buyer. In the event that semen is sold in volume on any of these bulls, profits will be divided 50/50 between the West Hills Ranch and the purchaser.

| Salers Breed Average EPDs |     |     |     |      |
|---------------------------|-----|-----|-----|------|
| BW                        | WW  | YW  | MWW | Milk |
| +1.5                      | +41 | +79 | +40 | +20  |

*Sale Day Raffle:* The West Hills Ranch relies on the nutrition team at IFA to help manage the year round mineral program and bull nutrition. This year IFA is sponsoring a western print that will be raffled off on sale day. For every sale lot purchased, the buyer's name will be entered into the drawing at the end of the sale. We would like to say thank you to IFA for their continued customer service.

### How Color Works in Cattle

Each individual box represents a possible color expressed by the progeny of these likely matings.

**B** = dominate black gene

**r** = recessive red gene

**rr** = red (homozygous)

**BB** = homozygous black

**Br** = heterozygous black, red carrier

## Directions to West Hills Ranch:

From Hwy 89 South of Afton head West on Hwy 236 toward Fairview 2.6 miles.

At the stop sign turn left onto Bittercreek Road 0.3 miles.

Take the 2nd right onto County Road 143/Fairview S, 0.7 miles.

The West Hills Ranch is on the left.

### *The program behind the bulls....*

- The bulls run with their mothers in the hills west of Star Valley until October. Since weaning, they have been offered free choice long hay and pail fed a bull development pellet from IFA mixed with steam flaked corn. The corn helps provide the necessary carbohydrates for maintenance and growth, while the pellet contains vitamin and mineral supplements and increases feed efficiency. Free choice long hay is always provided and we slowly increase the pail fed supplement to approximately 6.5 pounds per head per day during the cold weather. We provide the option to continue developing these bulls after the sale until May at no additional cost.
- The bulls have been vaccinated and boosted with Vision 8 and Bovishield Gold as well as poured with Dectomax this winter.
- Free delivery within 500 miles on \$4,000 purchases. They will have been fertility tested and carrying a current Trich tag.
- These bulls are guaranteed to remain sound breeders for the first breeding season.
- All bulls are also guaranteed to be docile to the buyer's satisfaction.
- 120 day performance test information since weaning will be available at sale time as well as carcass ultrasound data.
- We are excited to offer these bulls to you sound, healthy and range ready!

## LiveAuctions.TV

Real-time bidding is available via the internet for this sale. Live audio and live video will allow buyers to bid on animals just as if they were present at the sale. Buyers must create an account prior to the sale. Please visit <http://www.LiveAuctions.tv> to create an account and request a buyer number.

Instructions are available at <http://www.LiveAuctions.tv> to walk you through the account setup process.

Web Address ..... <http://www.LiveAuctions.tv>  
LiveAuctions.tv, e-mail address ..... [brad@LiveAuctions.tv](mailto:brad@LiveAuctions.tv)

**Buyers who would like to bid via the internet must register with LiveAuctions.tv two days prior to the sale.**

### *Heifers...*

- The female offering in this year's sale includes registered and commercial heifers. New this year is the opportunity for customers that have been using WHR genetics to enter pens of commercial females in the sale. A couple customers have taken advantage of this partnership and entered both open and bred Salers heifers in this year's sale. These pens of commercial heifers consist of three heifers each and will be sold three times the money. The bred commercial heifers are guaranteed bred, but are sold without further guarantees.
- All bred females are guaranteed pregnant and the open heifers are guaranteed breedable. These bred heifers are in their working clothes and ready to earn their keep in any herd.
- All responsibility of the bred females is to be assumed by the purchaser within one week from the sale including pickup/delivery.
- We are offering the option to continue developing the open heifers until May at no additional cost.

# The West Hills Ranch Program

We will take the opportunity here to give an overview of our program at the West Hills Ranch and explain how we are striving to be the west's source of calving-ease, PB, polled Salers cattle.

The cows kick off the annual cycle on the ranch by calving in April and May. When the breeding season rolls around the first of July, we synchronize and artificially inseminate for one breeding cycle then turn the herd bulls with the cows to finish up the breeding.

As the cattle graze the valley pastures, electric poly wire is used to create paddocks in which the cattle rotate in an intensive grazing system. In this grazing plan, pasture plants are allowed to complete their own life cycle before being harvested. As the cattle move across the land in a mob, impacts on the soil similar to roaming wildlife are simulated. Carbon mass and manure are spread on the soil surface to help build organic matter and soil health. As the cattle migrate into the mountains during the summer, individual pastures are divided as small as terrain will allow and grazed only once a year.

At weaning, the bull calves are fed a diet of free choice grass/alfalfa hay, a bull development pellet for added energy and feed efficiency and free choice mineral customized specifically for the West Hills Ranch. We are not looking

for fat bulls, but sound, firm breeders that will stand up under any breeding environment.

As the cows come out of the mountains with the deepening snow, purchased hay is made available in a bale-grazing fashion. Enough bales of hay and straw get set out for three or four days at a time. Feeding twice a week allows us to compensate for fluctuations in weather and wind chill. Only feeding enough for three to four days also decreases the lure of the plentiful wildlife such as elk and deer into the feed. Placing the hay strategically around the ranch leaves behind carbon mass once again in areas that need organic matter most. With this approach, we are also able to decrease the number of days the tractor gets started per week and free up the rest of the week to focus on office work, other interests, family, etc.

One of our popular interests is the endeavor to capitalize on species diversity by integrating a herd of pasture based, Tamworth hogs. These pigs grow up being rotated behind the cows in complementary pasture utilization. We will be direct marketing pork as well as some beef in the future.

Yet another summer activity will be to no-till a diversity of cover crops into a portion of the valley land. By grazing cover crops, we intend to increase pasture production through building soil health.

The West Hills Ranch specializes in offering calving-ease, moderate framed, sound bulls that have not been pushed on feed. We offer Salers genetics because we believe high altitude Salers cattle have the most potential to benefit programs that are looking for traits that include; Good dispositions, maternal superiority, sound traveling ability and vigor in newborn calves, all of which contribute to every rancher's quality of life. We will strive to find cattle that will fit your program and help you reach your goals as a producer.

Sincerely,  
The West Hills Ranch Team  
Randy, Pam and Ryan

There are many great ways to refer to this exceptional herd sire. Consistant is one of the favorites. His calves are all polled, black and are born easy. His calves are moderate framed and easy going like himself. Still, they boast exceptional wean weight ratios due in part to thickness and depth of body.

# Thank you!

A special thank you to the following WHR 2014 Prime Cut Production Sale Buyers:

- **Lawlar Angus/Gelbvieh** from Evanston, WY, for purchasing the \$5,750 high selling bull WHR17A.
- **Miller Ranch** of Farson, WY, for buying WHR40A for \$4,250.
- Volume buyers **Scott Barber**, Thayne, WY and **Fredrickson Ranch**, McCallister, MT.

To all the great customers that made the first four production sales a success, we wish to say thank you!

# The West Hills Ranch Story

Randy and Pam Hruska own the West Hills Ranch located in Fairview, Wyoming, one of the 12 communities nestled in Star Valley at an elevation of around 6,500 plus feet.

Hruska is a Czechoslovakian last name that when translated into English means pear. The West Hills Ranch brand, a pear on top of a number 7, stands for the English translation of Randy and Pam's last name Hruska and their 5 children totaling 7 in the family.

Randy has been in the retail hardware business, since he was 10 years old, working in his parents store in New Prague, Minnesota as a child.

Randy and Pam Hruska started in the commercial cattle business with 70 pairs and three Black Angus Bulls that they bought from Jim and Willard Wilson in 2001. In their second year they added about 50 more head and needed some more bulls. Jim Wilson said, "Why don't you try some composite bulls." Never having been in the cattle business before and only hearing all the "buzz" about Angus cattle, Randy asked, "What is a composite bull?" Jim explained the cross between Angus and Salers cattle.

Randy then bought Salers/Angus composites and started weaning 600 - 700 pound calves that were 7-8 months old at time of weaning. The Hruska's grew their operation to about 350 mother cows before selling out in the Fall of 2006. In the Spring of 2008, Pam and Randy started buying registered Salers heifers and have grown to just under 200 bred females.

In May, 2010, Ryan Jarratt was hired as Ranch Manager. Ryan brings his enthusiasm for the Salers breed to the operation from Bismarck, North Dakota where he graduated from North Dakota State University with a major in Agricultural Economics. Ryan has been involved in the Salers breed since he purchased his first registered heifer when he was ten years old.

We thank you for your interest and hope that we can help you reach the goals of your operation.

Truly,  
The West Hills Ranch Team  
Randy, Pam and Ryan
